

**CardPay**  
SIMPLE QUICK EASY

# What is it?

PMD CardPay is a simple, quick and easy funding solution designed around the funding needs of SMEs who have a card terminal.

Our panel of funders purchase your future card takings and advance anything between 100-240% of your average monthly takings.

The application process is easy and only takes a few minutes. Once approved, you will receive the funds in your account within days.

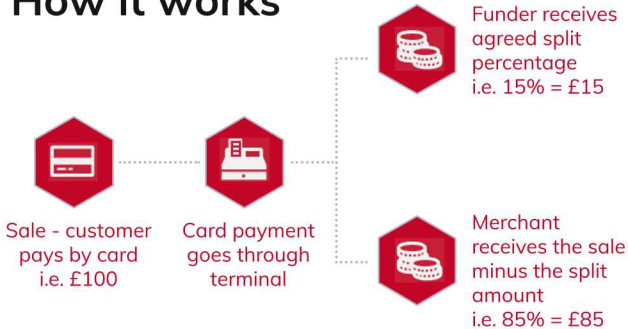

Payments are flexible and based on your business' card sales. There is no fixed repayment period, so repayments match and mirror your performance.

You can be approved for £2,500 to £200,000 and pay back just one simple all-inclusive cost.

# Business Cash Advance

A Simple, Quick and Easy solution to provide funding for your business
